1976 Cessna 172M Skyhawk II
AIRCRAFT SPECIFICATIONS
N-Number: N1420U S/N: 17267088

With very low airframe time, this stud 172M features enhanced performance with the RAM 160 hp STC, upgraded with a Lycoming O-320-E2D. Enjoy better climbs, higher RPM, and additional cruise speed over the stock version. Well-equipped for enjoying VFR flights, this Skyhawk II is perfect as-is or a great platform for adding a GPS for more IFR capability. Features include recent AeroCruz 100 (TruTrak) Autopilot, Insight G2 Graphic Engine Monitor and Stratus ESG ADS-B 'Out' Transponder paired with Stratus ADS-B 'In' access for iPads/ForeFlight. Let's go flying!

Airframe: 2,857 Hours
Engine: 606 Hours SMOH
PROP: 606 HOURS SPOH
