This is an excellent example of the famed Acro Sport II designed by the godfather of homebuilders, Paul Poberezny. This one was built by Richard Hartzell in 1987 and has detailed logbooks with most flights in its history recorded. Nimble, quick and graceful, the Acro Sport II can accommodate two pilots in tandem cockpits. A great personal flyer with solid performance, well-behaved manners and elegant, classical bi-plane lines. Have fun every evening!
