2011 Van's RV-7
AIRCRAFT SPECIFICATIONS
N-Number: N713DR S/N: 72521

This RV-7 is a work of art on the outside and a beast on the inside, powered by a Lycoming IO-540 rated at 260 hp. Flight-proved at +200 mph cruise and +2,500 fpm climb rate. Tremendous flying qualities, unreal performance, deluxe comfort and super glass avionics. The meticulous craftsmanship on this build is evident - and with just 80 hours total time, this is your opportunity to own a pristine RV-7 for a thoroughly modern flying experience.

Airframe: 80 Hours
Engine: 80 Hours STOH
PROP: 80 HOURS Since New

Details

Engine was purchased used with no logs. Top overhaul done by aircraft builder. Crankshaft and camshaft were visually inspected and were found to be in good condition with no visible signs of wear. All 6 cylinders were reconditioned by H&H Triad Aviation and new pistons, rings, wrist pins/caps, valve guides and seals were installed. Yellow tags are included in new engine log created with build.
