

1999 Pulsar XP
AIRCRAFT SPECIFICATIONS
N-Number: N9DK S/N: 315

This sleek Pulsar XP is a great little performer for Homebuilt aficionados. Powered by a Rotax 912 and GSC ground adjustable prop, expect cruise speeds of +130 kts and climb rates of 1,100 fpm +. Burn just 3.2 to 4.5 gph in cruise! Fresh comprehensive condition inspection by Rotax service center. Overhauled Rotax gearbox, all new engine hoses, mounts and rebuilt carbs and more to bring this ship into tip-top shape. This is your own little pocket rocket!
